

Miracle Travel Works assists families with seriously ill or injured children, from birth to 18-years-old, by providing the travel expenses necessary for them to receive essential medical treatment.

As a corporate sponsor, your organization will help provide our families with the financial expenses required for them to travel together. The ability to stay together during these incredibly difficult times allows families to remain strong while drawing strength from each other.

Meet Molly. Molly's first open heart surgery was at 4 days old and she has another planned at 4 months old and a third at 2 years - MTW allows her family to be with her at the time of the surgery and day-to-day so she grows healthy and strong.
